INTERNEWS IN SOUTH SUDAN

Internews has been working since 2006 to build and strengthen the independent media sector in South Sudan, including managing a network of 4 community radio stations across the country. In addition, we support Eye Radio, 98.6FM in Juba, together with our South Sudanese partner, Eye Media. Following the conflict that broke out in December 2013 which displaced more than 1 million people, Internews initiated four Humanitarian Information Services (HIS) to provide people access to vital information. We continue to build strategies and partnerships to reach more communities through our radio network, emergency Radio in a Box (BRAB), and HIS Mini-Media (Boda Boda Talk Bus - BBT).

Planned Coverage of Repeater Expansion of Eye Radio

Location | Coverage area | Broadcast languages | Contents | Listeners | Hours on air | On air since |
